

At Connecticut Children's Medical Center Foundation, we are committed to making our website easily accessible to all visitors. Our site incorporates recommendations of the Web Content Accessibility Guidelines (WCAG) as published by the Web Accessibility Initiative (WAI) of the World Wide Web Consortium (W3C).

Though no single definitive test of conformance to Level AA of the WCAG exists, we have implemented various methods to assess our accessibility, not limited to but including physical tests using screenreaders and keyboard only. If you find a part of the site that you feel does not conform to Level AA of the WCAG, please contact us by phone at 860-837-5700 to let us know so that we can make adjustments.
